Good Morning,

We hope everyone has had a great week. This year we have 207 Scholarly Session submissions for your review, up from 130 last year. **Please see the attached submitted Scholarly Session Proposals (pdf) and Proposal Index (excel) for your review.**

The decision to encourage innovative program formats this year, as part of our PAS LAB pilot program initiative, lead to the expansion of the former Invited Science category into several new session types:

Scholarly Sessions	# Submitted
Basic-Clinical-Translational Roundtable	7
Debate/Pro-Con Discussion	10
Hot Topic/Topic Symposia	142
Panel Discussion	24
State of the Art Plenary	24
TOTAL	207

It will be interesting to see how proposers have interpreted these formats. Please keep this in mind as you review and select sessions. For reference, the formats are described [here](#).

Scholarly Session selections will begin next week on **Wednesday, Oct. 17** and will be completed by **Monday, Oct. 22**. The Fall Program Committee Teleconference to finalize Scholarly Session selection is **Wednesday, Oct. 24, from 2 to 5 pm Central**.

We will provide more information regarding the Scholarly Session Selection process early next week, including the order of selection.

A few reminders and requests:

- Please let us know right away if there will be any changes to your society's Program Committee members for 2019.
- Call for Workshops and SIGs opened on Oct. 3 and closes Nov. 14.
